

Brachyglottis kirkii* var. *kirkii

Kohurangi

Brachyglottis kirkii var. *kirkii*

Registration Number SP031550

Phylum Embryophyta

Class Angiosperms

Order Asterales

Family Asteraceae

Scientific Name *Brachyglottis kirkii*
(Kirk) C.J.Webb var. *kirkii*

Identified By Drury, David

Identified Date 08 Feb 1972

Common / Maori name Kohurangi

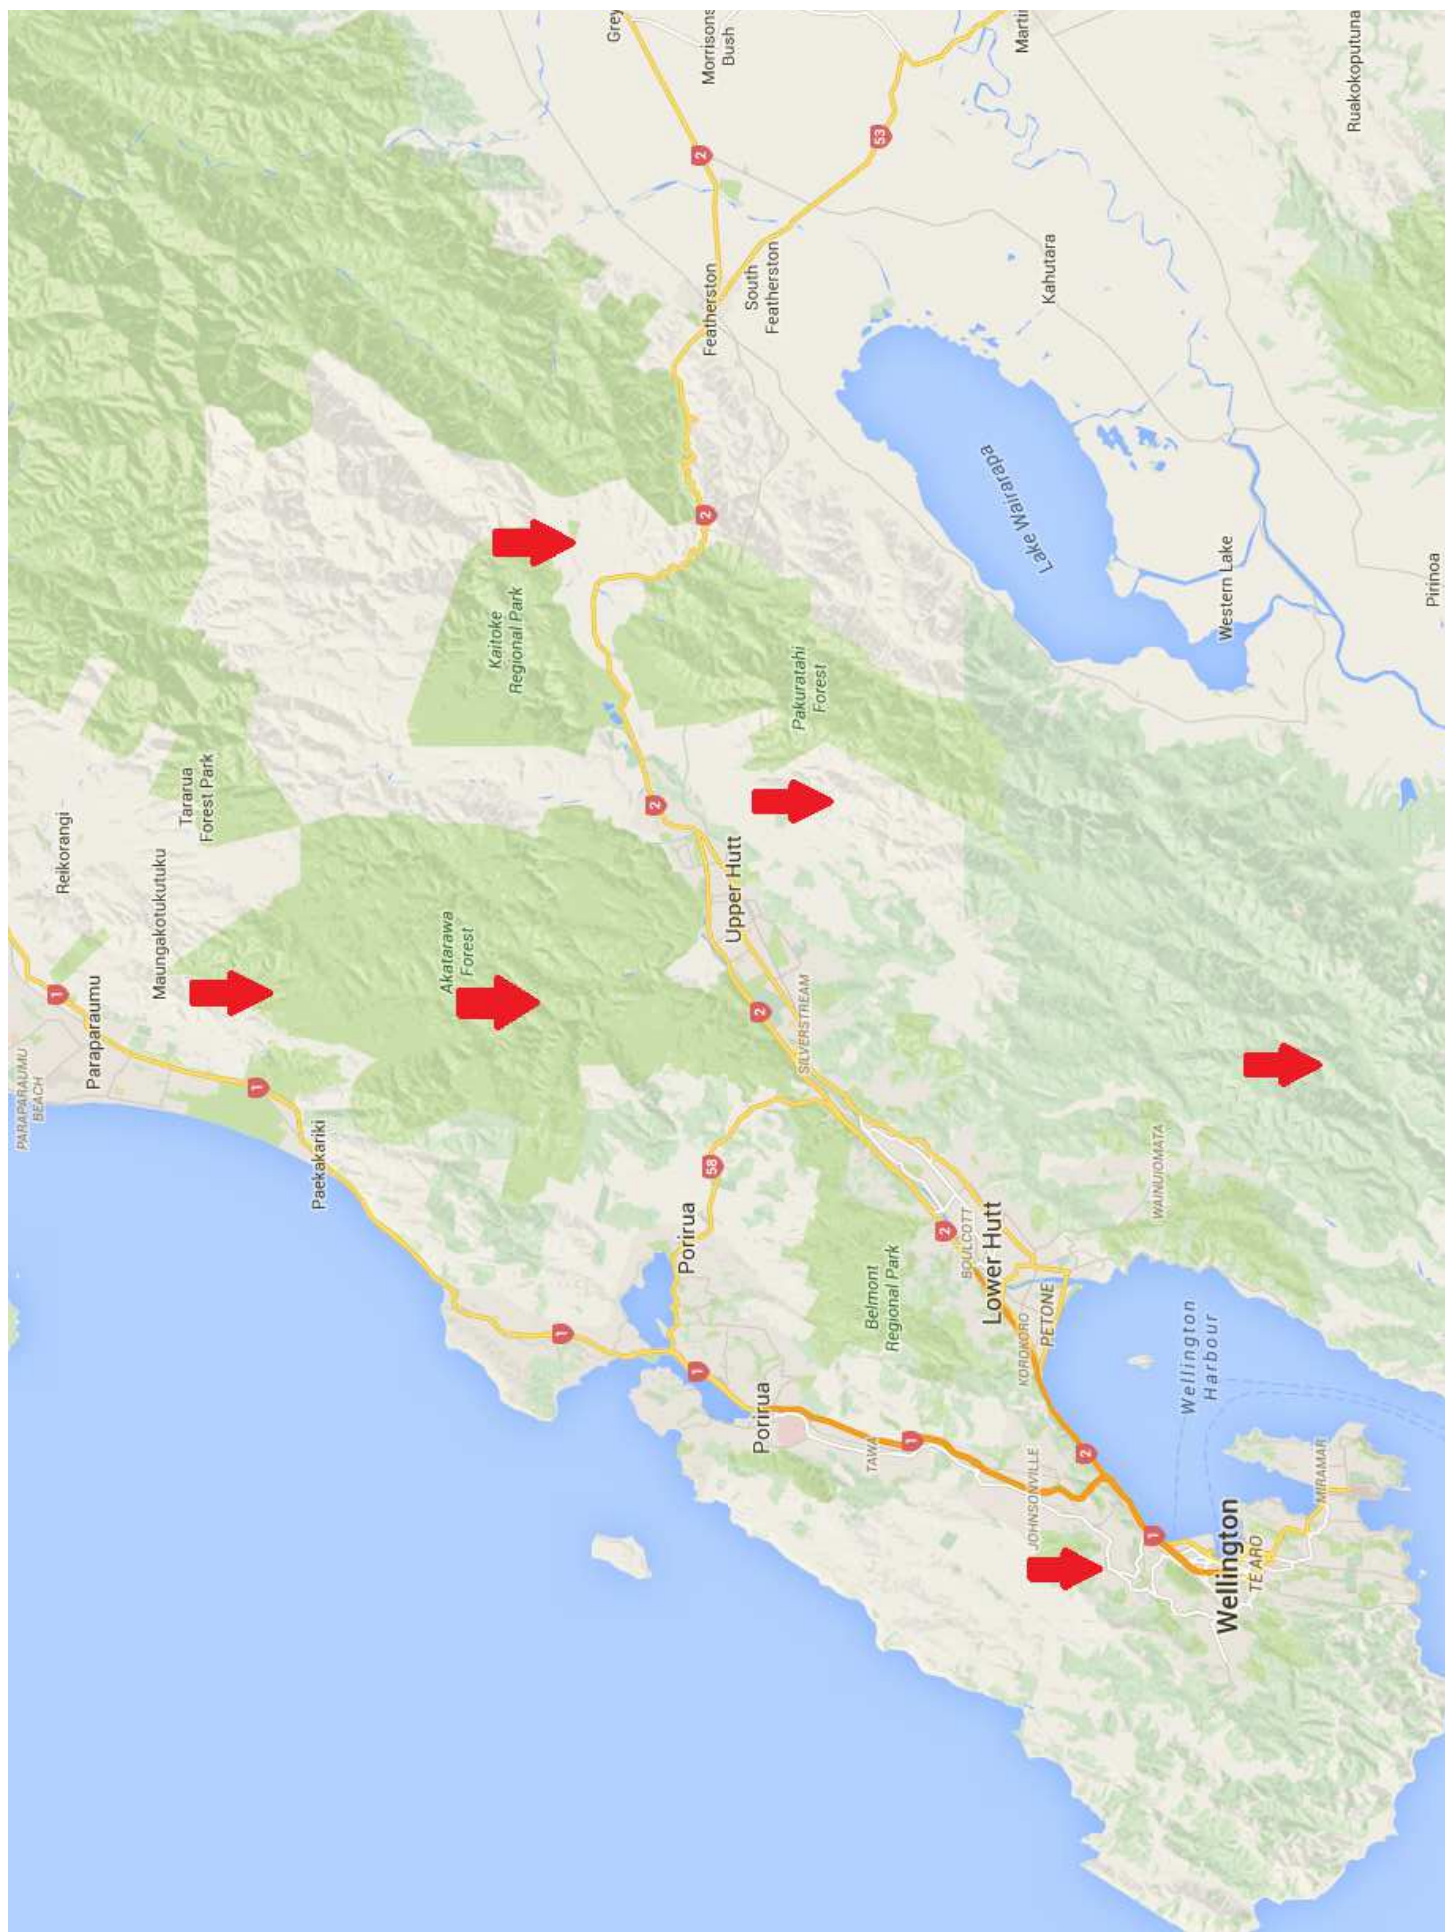

Country collected New Zealand

Region collected North Island, Wellington

Precise locality Wellington, Wadestown, **Wilton's Bush**

Date collected **Dec 1908**

What we know (or suspect)

- Very easy to propagate
- Remarkably drought tolerant
- Not shade tolerant
- Very hard to cultivate terrestrially
- Does not tolerate 'wet feet' or buried stems

What we don't know (and would like to).

- Why wild seed isn't germinating
- How to get them back into the wild
- How far to go with mixing populations
